Regulators in Clinical Research

- MoH Turkish Drug and Medical Device Agency
- The Scientific and Technological Research Council of Turkey
- Ministry of Science, Industry and Technology
- Ministry of Development

Sağlık Bakanlığı

TÜBİTAK

What is TUCRIN?

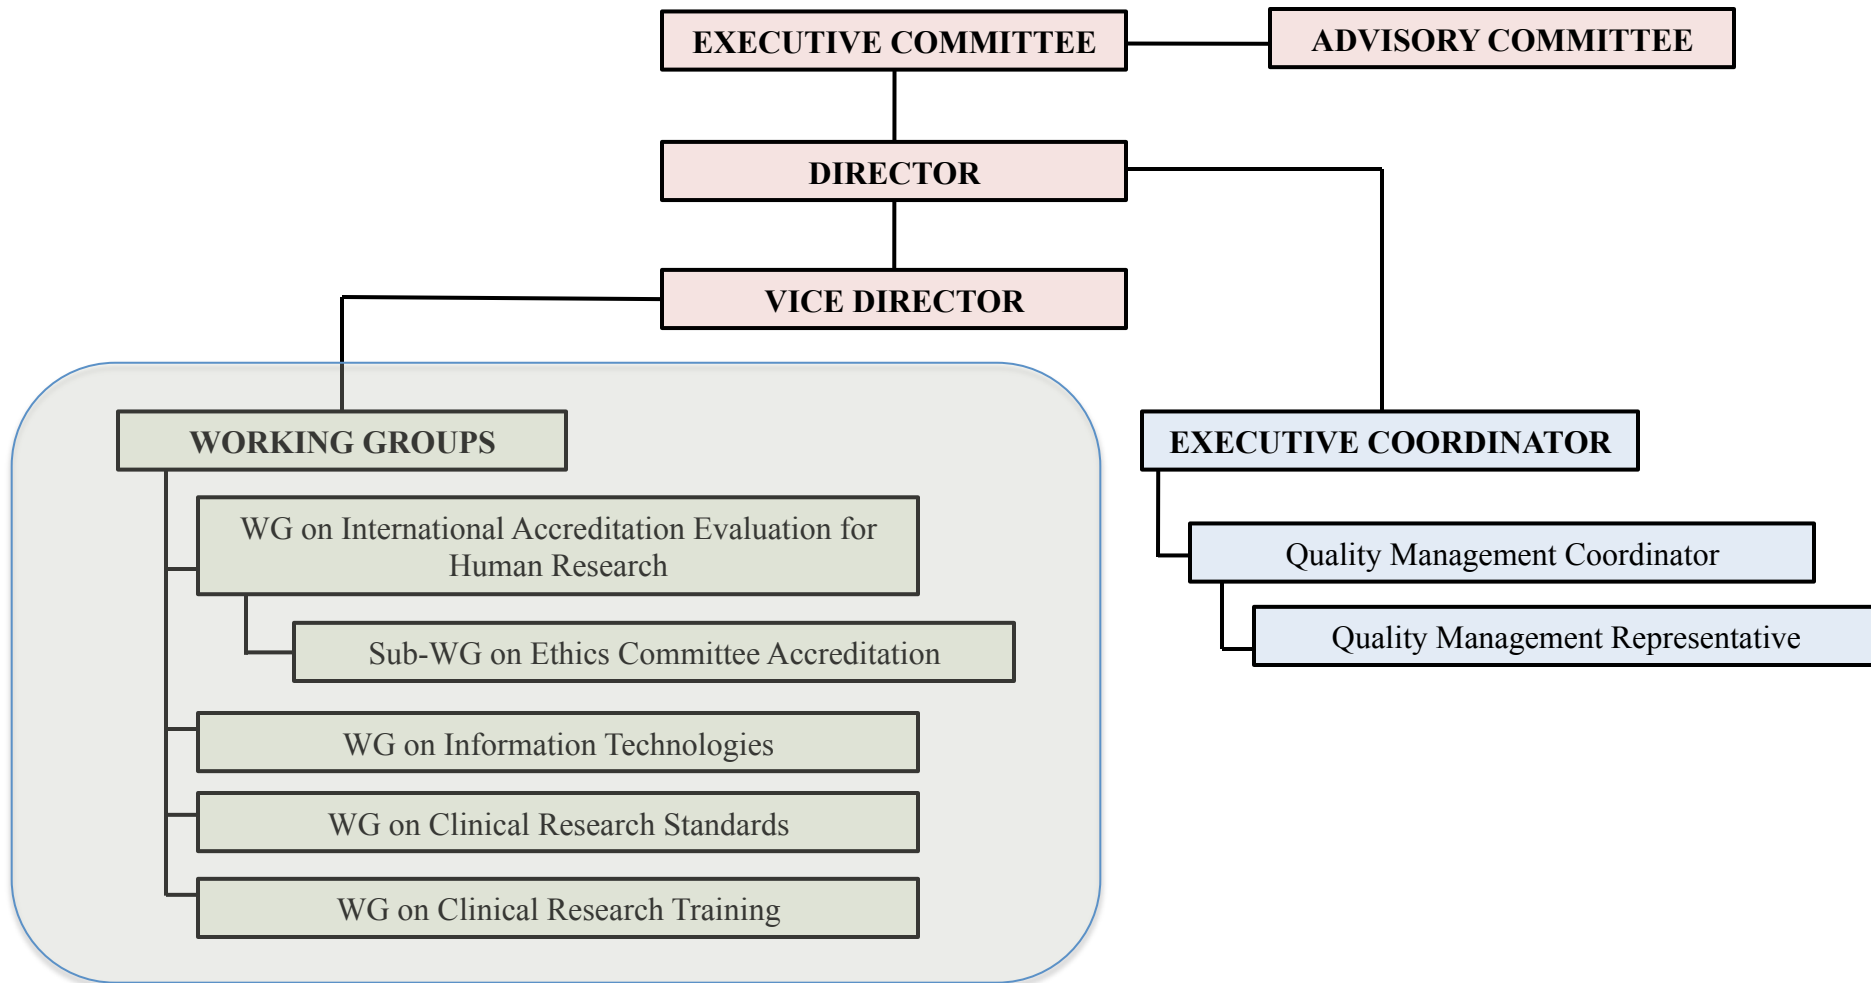

- Turkish Clinical Research Infrastructure Network
- Founded as a Center of Dokuz Eylul University, Izmir, Turkey, 2012
- Purpose: Building the national clinical research infrastructure
- Partner of ECRIN-IA, an EU FP7 Project

Mission of TUCRIN

- Promoting clinical research in Turkey,
- Improving the quality of clinical research,
- Improving the safety of participants,
- Supporting training of clinical researchers,
- Coordinating clinical research and providing standardization,
- Improving public health.

Organization

Executive Committee

Yeşim Tunçok (Director, DEU)

Cenk Ecevit (Vice Director, DEU)

Sedef Gidener (DEU)

Işık Tuğlular (ARGEFAR)

Hamdi Akan (Clinical Research Association)

Hilal İlbars (Turkish Drug and Medical Device Agency)

Emel Tetik (Sanofi)

Quality Policy

Partner-oriented and national

Constant improvement

International standards – ICH, WHO, ISO...

Quality management system

What We Do (1)

International Accreditation of Human Research
First and pilot in Turkey (DEU)

Department for Human Research Safety*
Clinical Trials Unit*

Accreditation submission
Project support from DEU

What We Do (2)

Working Group on Information Technologies

Creating a clinical research database with Turkish Drug and Medical Device Agency

For trials, researchers, CTUs...

Two workshops - First demo in 2014

What We Do (3)

National self-assessment and capacity building

- Ministry of Health
- Erciyes University GCP Center
- Biolstanbul Project Development
- Gaziantep University FARMAGEN GCP Center
- Istanbul University Drug Research Unit
- Ankara University Hematology Division
- Hacettepe University Technology Transfer Office

KLİNİK ARAŞTIRMA BİRİMİ BİLGİ FORMU

Bu form, Türkiye'de klinik araştırma yürüten ve gönüllü alımı yapan birimler için hazırlanmıştır. Bu birimler merkez, enstitü, anabilim dalı, bilim dalı veya klinik olabilir. Formun birimdeki bir yetkili tarafından doldurulması gereklidir.

Form ile klinik araştırma yürüten birimler hakkında tanımlayıcı bilgi oluşturulması ve altyapı olanaklarının saptanması amaçlanmaktadır. Bunlar yanında Türkiye'deki klinik araştırma ortamı ile ilgili değerlendirmeler sorulmaktadır.

Elde edilen bilgiler biriminiz için klinik araştırma ortaklıkları sağlamak üzere önceden izniniz alınarak TUCRIN'in yerli ve yabancı paydaşları ile paylaşılabilir. Anonim hale getirilmiş bilgiler ise ülkemizdeki klinik araştırma ortamının geliştirilmesi için TUCRIN'in yerli ve yabancı paydaşları, kamu kurumları, sivil toplum örgütleri ve/veya kamu ile rapor ve benzeri formatlarda paylaşılabilir. Kimliklendirilebilir bilgiler gizli tutulacak ve ancak biriminizin izni ile üçüncü taraflarla paylaşılacaktır.

Yıldızlı alanlar doldurulması zorunlu alanlardır.

Gelişmeleri takip etmek ve bize ulaşmak için lütfen tucrin.deu.edu.tr adresli internet sitemizi ziyaret edin.

About Us

TUCRIN is Turkish Clinical Research Infrastructures Network, founded under Rectorate of Dokuz Eylul University, Izmir. TUCRIN is a partner of [ECRIN](#), a European Union Seventh Framework Programme project.

TUCRIN is planned to consist of clinical trial centres and clinical reserach units, spread across Turkey. Each TUCRIN member is supposed to locally support investigators, sponsored by public funds or industry, in conducting and coordinating clinical trials and to provide consult and training.

TUCRIN has been founded to improve the quality of clinical research conducted in Turkey and the safety of participants.
